

Memmingen, Bavaria, Germany

## **Helicopter B1 and B2 on Airbus AS350 series (female, male)**

Aircraft Maintenance for helicopters is its own world – and we are preparing ourselves for this new arena. Our modern facilities at Memmingen Airport have everything for maintenance, overhaul and a whole range of other technical services for fixed-wing aircraft.

Now we dare to enter the helicopter foray – starting with the AS350, followed by the EC135. This new chapter awaits you!

### **Your Profile:**

- You are EASA Part-66 or similar trained and are looking for challenging and diverse job in the region.
- You have just become Certifying Staff (CS), or you already have a few years' experience.
- You are versatile and you want to take responsibilities for technical services on helicopters.
- You like working in a small team with the latest software and modern workplace methodologies.
- You are capable of reading and understanding aircraft manuals.
- Understanding some German is beneficial but not required.
- Obtaining the German Security clearance, however, is a requirement.

### **Our Offer:**

- Continuous advancement and training.
- Modern work environment.
- Interesting projects using high-tech tools and mechanisms.
- Flat hierarchy and fast decision-making processes.
- Flexible work- and overtime-account arrangements.
- Special personal considerations possible.
